

STARK

Oil and water repellent Antispot

Revision 01/2008

DESCRIPTION

STARK is an antispot oil and water repellent treatment: it's an alcoholic solution product specific for the protection of absorbent materials and natural stone surfaces.

Characteristics: no colour on treated surfaces - water steam permeability of treated surfaces – no filming on bright surfaces – U.V. stability – little alkaline solutions stability – fast polymerization – fast drying up – easy to apply

Certified Transpirable Product: nr.report test 3815 of 26/05/2008 (Laboratory Contento Trade srl-UD)

APPLICATION SECTORS STARK is a no filming oil and water repellent treatment for absorbent building materials and natural stones in smooth, bright or natural finishing, with high absorption coefficient too. STARK can be used for kitchen tops, bathrooms coatings and internal or external floorings.

CHARACTERISTICS

Aspect	Liquid	U.V. Ray	Excellent Endurance
Colour	No colour	Film	NO
Fragrance	Distinctive	Polymerization	5-8 minutes
Inflammability	Inflammable	Active Principles	Fluorinated

USE Apply PURE.

APPLICATION Apply pure using low pressure sprayers, soaks or brushes on clean and dry surfaces. In the case of application by brush, do it very slowly to avoid foam. (Chemio Tecnica suggests the application in two coats at intervals of few minutes, when the surface is still wet). On shiny surfaces, eliminate possible excesses using a clean cloth felt. The maximum effect is reached after 3-5 hours from the application. The advised temperature for the application is 5-20°C. The product doesn't protect from acids. Treat again every 2-5 years, it depends on the use.

OUTPUT from 5 to 20 mq/litre The following minerals are a selection of surfaces where the product applied is excellent. Outputs depend on the mineral finishing and on the type of the application: so the following data are only for guidance.

- Serena Stone	from 5 to 10 mq/litre
- Tuscan Terracotta, Pietra Dorata, Peperino, Basalts	from 8 to 14 mq/litre
- National Travertines, Rosso Verona, Venetian terrace, Pietra di Brac, Kashmere Siwakashi	from 10 to 16 mq/litre
- Piasentina, Trani, Botticino, National Granites	from 12 to 20 mq/litre

WARNINGS

Easily inflammable. Irritating for eyes. Do not inhale vapours. Avoid contact with eyes and skin. Use protective clothes and gloves and protect eyes and face. Before using the product, read the safety schedule.

SPREADING In case of spreading, absorb using inerts, sand or earth.

STORAGE Keep in fresh and windy places. Keep away from flame and sparkles.

PACKING

1 litre bottle	12 x 1 litre	Cardboard
5 litres can	4 x 5 litres	Cardboard
25 litres can	1 x 25 litres	Can

SAFETY INSTRUCTIONS

Symbols for the labelling: Xi - Irritating F – Easily inflammable

R 11 – Easily Inflammable

R 36 – Irritating for eyes

R 67 – The inhaling of the vapours can cause drowsiness and dizziness

S 2 - Keep away from children

S 9 – Keep the container in a windy place

S 16 – Keep away from flame and sparkles

S 24/25 – Avoid contact with eyes and skin

S 26 – In case of contact with eyes, clean immediately with water and call the doctor

S 43 – In case of blaze, use sand, dry-stone chemical or frothy agent

S 46 In case of ingestion, call the doctor and show the case or the label of the product
